I know it's bad to feel this way
You don't belong to me
But when you're gone and out my sight
I think of you constantly

I wish I could get you alone
If I had the chance
I could persuade you I'm the one
For romance

CHORUS

So if you wanna know what love is like
I'm here (and I'm waiting for you)
I'll give you all the love I have inside
My dear (I'm so ready for you)
Take me, shake me
Throw me to the floor
But I couldn't want you more

I might be mad to sometimes turn
From the way that you look at me
Are you feeling the same thing?
And just imagine

I know it's more than just a phase
Or a passing crush
There could be something from my praise
The both of us

Repeat CHORUS

I'm not the sort to run off
When something is going right
But prepare your monochrome
For me you burn so bright

Just succumb and unify
Give up the fight
If you would just give me a try
You'll see I'm right for you

Repeat CHORUS

I couldn't want you anymore
I couldn't want you more
I couldn't want you anymore
I couldn't want you more

I couldn't want you more
I couldn't want you more
I couldn't want you more
I couldn't want you more
