I'm gonna turn your fear into power  
I'm gonna turn your power into will  
I'm gonna turn your will into power  
You can use this power as your drill  
If it hurts you in the morning scream a little louder  
And I will come running under  
And you'll be my mirror ahha  
I'm gonna turn your fear into power  
I'm gonna turn your power into will  
I'm gonna turn your will into power  
You can use this power you can use  
If it hurts you in the morning scream a little louder  
And I will come running under  
And you'll be my mirror ahha  
I'm gonna turn your fear into power  
I'm gonna turn your power into will  
I'm gonna turn your will into power  
You can use this power as your drill  
If it hurts you in the morning scream a little louder  
And I will come running under  
And you'll be my mirror ahha  
If it hurts you in the morning scream a little louder  
And I will come running under  
And you'll be my mirror ahha...  
If it hurts you in the morning scream a little louder  
And I will come running under  
And you'll be my mirror ahha
