

Dead To Me "Don't Wanna"

Is there anything right worth saving?
The old bits are feeble and gray
The oil-covered fish are buildings with bombs and
decay
I've got hand full of screws and remains
The other one is cut and stained
From holding on while it all slips away

I don't wanna go
If I stay we "Fall to Pieces"
I'm banking on the fact that you won't give a fuck and
fall back asleep
As the days go by...

I don't want a new face so I can smile and become part
of the problem now
We got the rhyme and reason to riot
But we're all too fat to buy it
So it's all endured in the hope that something occurs

I don't wanna go
If I stay we "Fall to Pieces"
I'm banking on the fact that you won't give a fuck and
fall back asleep
As the days go by...

So now what?
Child keep your head down
Just give up
Don't make a sound
