

## **Dead To Me "What's Wrong"**

Visit "[What's Wrong](#)" on MotoLyrics.com

For once I'd like to wake without feeling guilty  
For once I'd like to watch like I don't care  
Patriots with crosses to bear, all the excess and media  
fear  
Superficial superlies, CFC's and patricide

I don't wanna sound afraid  
Don't wanna keep you awake  
I don't wanna let you down  
I think I just need a little time

To blow, like a bit fucking volcano  
Spewing knives and venom and poisonous two headed  
toads  
With words uglier than your face and the lies you're  
telling me  
An implacable foe to break up the hold that you got on  
me

I don't wanna sound afraid  
Don't wanna keep you awake  
I don't wanna let you down
