### "Black To Invisibility"

Movement of rocks are rising up  
Highest knowledge from the earth  
Give of honour, black vestment and glare  
Dismembered hearth for universe and nature  
Removing of life in low  
Heathens of universe will be massacre  
666  
Number of distraction, wisdom and freedom  
Black to invisibility  
Face of immortal grave  
Underworld darkness of forgotten world  
Eye of black life revelation  
Born to reincarnation  
Stairs into - eternal castle of black - rites
