Gathering of fire daemons  
They fly round up and down  
Chaos is life  
Holy chaos  
Bottomless putting of bloody sepulchre  
Betray of death so endless  
Chaos of sacrifices and their souls  
That are anticipate their death and infamy  
Calling of Amphiteatrum Sapientae Aeternae  
Finding of forgetfulness in the middle of night  
Lost and forgotten in the middle of day  
Incignificant loose of old number  
666 - I call on this world  
In darkness are loose primary words  
Ending further in bottomless darkness  
Nameless by mightest  
Calling holy signs - of your birth  
Passion to night - dark evil  
Highest revealing - by slut of universe  
Blasphemy to stars - highest  
Calling of forgotten word - deadly roaring beast  
Middlenty among - infinite  
Lost and forgotten - loosing space  
With power of unknowledge - are open the gates  
To bottomless darkness
