Now, it's time to welcome your thought  
I'll become your living coffin  
You will curse the time when my eyes  
Saw the body that you borrow from me  
See, your body is disappeared  
Now your thought is inside me  
I cannot control my body...

[Bridge]

When Morpheus takes you in his arms  
I can feel my existence  
When Morpheus takes you in his arms  
I can speak to you

[Chorus]

Two minds are fighting for a body  
Who will win after that?  
Talking into a morbid dream  
Who could believe it's not a lie?

Now, our human logic is false  
We're too small, but so egotist  
Now our human logic is false...

[Bridge]

[Chorus]

In this empty dream my fate's the same with your own  
The narrow-minded people live their hypnosis of lies  
When they'll see the truth they'll believe, yes, they'll  
believe

[Chorus x2]
