These nights I open my mind  
I close my eyes and goes to these places  
I see a world different  
The spirit of gladness gives smiles to faces  
Spirit of the liberty flies on the air  
I feel so, so worth, because I can go there

[Chorus]

I would like to be there tonight  
I want, with lust I want to feel the spirit  
Maybe I'm a crazy dreamer  
But I want to be the prince of night

As I'm looking the skies  
I have a feeling that fills my soul  
There's something in my eyes  
I've had a feeling that fills a hole  
In this world of hopes and fears  
Oh, come on my friend and let's get near

[Chorus]

You will see, our world is gonna change  
All the things will be like there  
We are so strong, we have power  
And we'll become princes of the night

[Chorus]
