Frozen to death in the dead of winter, showered with  
blood and sores  
Entangled in vines and needle-like thorns  
Entering a world which is not of my own  
Passages of darkness are met by a doorway  
The light is shining from the inside  
And in my hand is a frozen key, I open the lock of this  
terrible dream

Chanting the last passages before me!

Love is locked in impermeable rooms, denying my  
entry  
Prisoner of sin, false-witness, and fear  
And then the tragic misfortunes return to me.  
You liar, destroyer, despise you, Lucifer, until your  
death

Waking up, the pain is gone, yet I still cry  
Frozen tears, the sky is black, the night I fear  
Reality seems like a blow to the head with a mace  
And even in dreams, the pain that I feel has a wretched  
face  
Lonely life, the nightmare ends, yet I still cry.  
Endlessly, is this another fantasy.

Cross on my wall, why do you stare at me?  
What have you done for me to spit on my savior  
You were rejected just like me.  
What do I do to be saved. Saved from this frozen death

Follow me home. I'll make you fishers of men.  
Sell your possessions and walk with me  
Other gods are sitting beside me  
Hammering idols is now your mission  
Lord, I besiege you, for now I am yours

Spirit of God, direct my paths, and make me complete

Waking up, the pain is gone, yet I still cry  
Frozen tears, the sky is black, the night I fear  
Reality seems like a blow to the head with a mace

And even in dreams, the pain that I feel has a wretched  
face  
Lonely life, the nightmare ends, yet I still cry  
Endlessly, is this another fantasy?

Will I ever find peace?  
Will I ever find peace again?  
Satan, I despise you
