The absence of light which has never been  
The premise of suffering grows with a fear  
So boldly set towards destruction, I crave more  
experience

Now I can see the great caverns  
Twisting mazes of deception  
Walking through the path  
Gathering the dead  
Heading towards the storm  
You'll feel the poison of betrayal

Now I can hear the great liars  
Prophets of falsehood and deceit  
Claiming Christ to be just another man, Trinity denied  
They can't see the noose. They will suffocate

Bestial diseases will kill, even those who try to find a  
cure  
Entering the realms of demonic curse  
Why do you insist on this vile path of extinction?

Ancient disasters are rising again to cause despair  
And nurture a hatred that was only heard from stories  
of old  
Gomorrah's rebirth in these new times  
Where confusion is seen in the form of crimes

Guided by a spirit of demise, and figures in the caves  
of dawn  
Misguided you arise, with thorns of malice for mankind  
Believer! Do not take the steps to death  
Hold fast to your reward. Resist the calling of this world  
I declare an Oath. Everlasting promise  
To brutally serve The Master, even as I lay dying

Descending through the forest of emptiness  
Riding against an army of millions  
Filling the ranks were those who opposed  
Clashing of swords and shields  
Sacrifice lives against demonic forces, riding against  
us

Descending through the caverns of emptiness  
Fighting against an army of millions

Bestial diseases will kill, even those who try to find a  
cure  
Entering the realms of demonic curse  
Why do you insist on this vile path of extinction?

Ancient disasters are rising again to cause despair  
And nurture a hatred that was only heard from stories  
of old  
Remember the day where evil submitted to God

Funeral Oath! Funeral Oath!  
Funeral Ressurrection! Funeral Oath
