She is a girl of 1000 tears  
she cries and cries  
all night long  
Her tears flow down the street and the stairs  
they flow and they flow

One day they'll reach the Rhine, hurray  
from Aachen to Turkey hey hey

She went to the river  
and laid herself down  
the water is alive  
and roaring with sound  
It said baby please  
come flow along  
it said baby please  
come flow along

In 1000 years she went away  
over the fields of snow  
to the river bay  
She is a girl of 1000 tears  
she cries and cries and cries  
all night long

She went to the river  
and laid herself down  
the water is alive  
and roaring with sound  
It said baby please  
come flow along  
it said baby please  
come flow along
