Silent Night. Unholy Night  
Silent Night. Unholy Night

Skies of night, relentless, unforgiving  
Angry winds proceed amongst the living  
Here comes the storm, the cosmos brings a fear  
The curses brought to life, experience means nothing

Only faith can save you from this day  
The night produces a spectre so evil  
Come to me all who are heavy burdened and I shall  
give you rest  
I shall give you rest and protect you this night, and  
every night, forever.  
Spirits of fallen nature now arise to take what is theirs  
Inspiring hatred within our souls, they destroy what is  
ours  
Flesh and bones are not our enemies, but unseen  
forces of evil  
Possessing beings which lack the power to end this  
cheap rebellion  
And one day they will see the light, but not the light of  
heaven  
The light of Hell and suffering, of endless torture.

Silent Night. Unholy Night

Skies of night, relentless, unforgiving  
Angry winds proceed amongst the living  
Here comes the storm, the cosmos brings a fear  
The curses brought to life, experience means nothing
