"The Hope Of Tomorrow"

Visit "[The Hope Of Tomorrow](#)" on MotoLyrics.com

When you believe in yourself
Everything is possible
I feel I should believe you trust
The way you live all your life you can do anything
I never knew you wanted to explain when seeing
sundown
I'll feel like I know I can hope

There will be always the hope of tomorrow
Even if things happen that make me feel blue
Love is magic, oh so very, very far from heaven
But you're always hoping for tomorrow

Love is magic, oh so very far from heaven
But you're always hoping for tomorrow
