(feat. Javine)

Don't want the morning, the morning to come
Don't wanna feel like the party is done
The day is dawning, but I wanna carry on and on and
on

It's five o'clock and my work is done
Now I feel to party all night long
I won't quit 'till the weekend's come and gone
Nothing like a friday night
When my girls start to feel the vibe
In the club I can really come alive

(2x)

Don't want the morning, the morning to come
Don't wanna feel like the party is done
The play of dawning, but I wanna carry on and on and
on

Drink or two just to chill me out
I got no fear and I got no doubts
Having fun is what it's all about
Give me room while I hit the floor
Every tune just leaves me wanting more
DJ's spins them cuts I can't ignore

Don't want the morning, the morning to come
Don't wanna feel like the party is done
The play of dawning, but I wanna carry on and on and
on

Don't let the morning come

(2x)

Don't want the morning, the morning to come
Don't wanna feel like the party is done
The play of dawning, but I wanna carry on and on and
on
