

## Soul Demise "Amnesia"

Lost my memory, as words out of my mouth  
Just odd words without sense  
A punch was the cause  
Tell me, who I am  
Able to travel through the time  
Yet bounded on the spot  
Able to move through bodies  
Yet prisoned like in a cell

Amnesia  
I've been wandering through death valley  
Hear my call  
Can feel the sun and moon's rays  
Help me come at all  
My hands raised towards the wall  
To break it down forever  
Still waiting for the day and time  
So we can come together

My very will is stronger than death  
Managing it will be my goal  
Going to free me from this misery  
Too much of an effort to you alone  
Eternally prisoned in time and space  
In a dimension
