Waging war, war on the world  
And no one on, On our side  
And by our selves, with no help  
We never leave a man behind

You try to stop us with your nothing  
Bring us to anger  
Back down from this fight  
3rd world dark as night

Astral pain the 9th level  
Back down a notch to 8  
We stand alone with inner fear  
And To the 6th whom desecrate

Waging war, war on the world  
And no one on, On our side  
And by our selves, with no help  
We never leave a man behind

You try to stop us with your nothing  
Bring us to anger  
Back down from this fight  
3rd world dark as...

You try to stop us with your nothing  
Bring us to anger  
Back down from this fight  
3rd world dark as Night.
