Every night asleep I'm dreaming away
It's not a dream but something deep
See your self in despair and fear
Closer closer wake draws near

Believe what you see, it's only a dream
One true meaning
Awake and free
Awake and Free
Reoccurring Nightmare

Every night alone I'm away
Subconscious meaning in your mind
See your self in despair and fear
Closer closer wake draws near

Believe what you see, it's only a dream
One true meaning
Awake and free
Awake and free
Reoccurring Nightmare
