Propaganda, you see
And the cure, is for me
He brings it for me
He brings what we need
Forgotten who is he
On your knees beg and plea
Beg and Plea

What you bring is for us
What you see cannot be touched
A blind mans solution
Underground revolution
Revolution

Far from never, what you bleed
Money or fame or what you need
He brings it for me
He brings what we need
Forgotten who he is
On your knees beg and plea
Beg and Plea

What you bring is for us
What you see cannot be touched
A blind mans solution
Underground revolution
Revolution
Revolution
Revolution
