The way you walk right in a room
It's so graceful
A thousand points of light shine thru you
A subtle smile and swing I feel your energy and you are
so incredible
Cause you

Your my shining star
My guiding light to see
You are so beautiful to me
Yes you are yes you are
Your my shining star
My guiding light to see
You are so beautiful to me
Beautiful, so beautiful

God's creation, right before my eyes
A new sensation, you know how you move me
Venus return's her energy and sent it down to you &
me
And I love the way it feels cause you are

You took me riding me in your spaceship of love
I'm weightless, higher than I ever been

I was blind now I can see how beautiful you are to me
