[Verse 1:]

Life is crazy sometimes I feel like I'm just going out of  
my mind

Ain't no pleasure in this pain that's why I hide all my  
fears inside

(I'm keepin it real, girl)

So you ask me what is wrong and I try my best-to  
explain

(This ain't no love song)

It's just a temporary chemical imbalance messin with  
my brain

(And I'm not feeling alright, no no)

[Chorus:]

Stop the world from moving

Can't hang with this groovin'

It's the day to day thangs be buggin me (oh no)

Like I'm havin a nervous breakdown

And it's kickin me in the worst way

[Verse 2:]

Sometimes you go through it all the money in the world  
can't fix it

Sunny days seem so blue feels like I lost a good friend  
can't deal with it

Anxiety attacking me through all my thoughts and my  
sanity

Finding it so hard to concentrate on love, life and  
creativity

[Chorus]

[Vamp:]

Gotta just live my life

Then I'm gonna feel alright

No stressin and no more strife

Gotta make it feel alright
