[Verse 1:]

For the first time in a long time, life's a little better
It's the first time, an awfully long time, life's a little
sweeter
As you may have guessed, you have made it very
blessed
So I must confess, that

[Chorus:]

Baby girl
It's no surprise that you're in my life
I see the future and it's open wide
Cause you're in my life

[Verse 2:]

It won't be long now for us to see how this love thang
grows
Cause I been braggin to my best friends now
everybody knows
Could this be the thang that my life's been waiting for
Could you be the one that I been searchin' all this time
Now your mine, oh

[Chorus:]

Baby girl
It's no surprise that you're in my life
I see the future and it's open wide
Cause you're in my life

[Vamp:]

I was confused, now I can see, you and me together
I was so blind, how could I, baby, baby

Now I can see us together babe, forever babe, oh
[repeat]
