We got more bounce in California
Than all y'all combined
We got more bounce in California
We like to party all the time
We got more bounce in California
Where the hustlers all reside
We got more bounce in California
Rollin' easy when we ride

Well excuse me for a while
But it's time to propagate
I'm comin' from the land
Where the seasons never change
Where all around the world
They're all lookin' to L.A.
Always the first in new directions
Cause Cali leads the way

Chorus

Now everybody's by the pool
All pleaking out on ecstasy
Just bumpin' to a playlist
That's all down on mp3
Comes another group of ladies
Borrowed their mama's SUV
Well I've seen that blonde before
In a vivid DVD

Chorus

California
Just a little bit higher baby
California
Just a little bit higher now
California
Just a little bit higher baby
California
Just a little bit higher now

If ya stuck in rush hour traffic

Out on the 101
Just blaze up and roll the top down
'Neath that California sun
Oh let those police helicopters
Shine the spotlights down on me
And I thank my lucky stars
There's no place else I'd rather be

Chorus (2x)

California
Just a little bit higher baby
California
Just a little bit higher now
California
Just a little bit higher baby
California
Just a little bit higher now

Just a little bit higher baby
Just a little bit higher now
Just a little bit higher baby
Just a little bit higher now
