Just inhale, inhale, inhale, inhale, inhale, inhale, inhale,
inhale

Just inhale, inhale, inhale, inhale,...exhale

Just inhale, inhale, inhale, inhale, inhale, inhale, inhale,
inhale

Just inhale, inhale, inhale, inhale,...exhale

My rhymin' get invited in your body like a vitamin

I supply the suppliment

you just discovered it

Hold me close and overdose on my poetic potion

Love me when you rub me in your skin like lotion

Then I'll begin to stimulate your inovative action

You used to be subdued

but now you choose to rhyme with passion

Sign for this delivery that I left on your portch

Sign for this delivery no matter what the cost

Let my thought direct you when you start feelin' lost

Tune into my frequency and never turn me off

Listen to my interview straight from the source

Order from my menu and get the main course

Come on into work early

let me be your boss

Let me be the theme music

you won't take a loss

Just inhale, inhale, inhale, inhale, inhale, inhale, inhale,
inhale

Just inhale, inhale, inhale, inhale,...exhale

Just inhale, inhale, inhale, inhale, inhale, inhale, inhale,
inhale

Just inhale, inhale, inhale, inhale,...exhale

You don't need a needle just to put me in your arm

Let me fill your blood stream until you're feelin' warm

Let me do the fightin' for you 'til the pain's gone

Store me in a safe place deep inside your home

I'm willin' to take trips into the dark and unknown

corners of your subconscious where the climate's cold

Use me to the fullest, it'll never get old

Forget about oppinions and the things you've been told

Use me as a courtesy for things bought and sold

Let me be an example of how to break the mold

Use me as an innocent, you need to break the hold

Use me 'til I'm gone, use me 'til I'm gone

Just inhale, inhale, inhale, inhale, inhale, inhale, inhale,
inhale
Just inhale, inhale, inhale, inhale, exhale
Just inhale, inhale, inhale, inhale, inhale, inhale, inhale,
inhale
Just inhale, inhale, inhale, inhale, exhale
Let me be the scapegoat for all your inner ???
Let me be the one you blame for all your inconsistencies
Let me be the one to solve all of life's mysteries
My quotes the anecdote for all of life's misery
Study all my hard shit and learn a thing critically
Forget about the bullshit you learned back in history
Visit every continent without movin' physically
Exercise mentally, get in shape spiritually
Exercise mentally, get in shape spiritually
Give in to me and take deep breaths of my imagery
Exhale, all the hate you had for your enemy
Exhale, all the hate you had for your enemy
Just inhale, inhale, inhale, inhale, inhale, inhale, inhale,
inhale
Just inhale, inhale, inhale, inhale, exhale
Just inhale, inhale, inhale, inhale, inhale, inhale, inhale,
inhale
Just inhale, inhale, inhale, inhale, exhale
