Searching the meaning of life  
Pages of sanity unfolds  
This is a nice hell, paradise  
Open up for Satan, and bleed  
Fallen angels, come for me  
My body is dying, I'm no longer me  
"Satanized"  
Come forth and open the gate  
As we are burning the symbol of Christ  
And forever we be satanized  
Demons now come for me  
My body is dying, I'm no longer me  
Behold my power, and die!  
Legions of hate will conquer  
All will follow my spell  
I lead people from Christ  
Satanized I was born  
Satanized I will be
