This is a story about you.
And all the tales of how you would succeed in a life
outside of this dead end town.
Well look at you now, you're just a failure like all your
friends.
Well welcome to the world the rest of us call life.

When destiny fails you and no one seems to give a shit
about you my friend.
'Coz in the end there will be no one left to help you out
of the hole you dug yourself in.
'Coz like me you've forgotten your fate an that
everything else is just a fucking waste of time!

When all hope is gone and no one is left around to help
you carry on.
To give you that helping hand that you now so seem to
need.
You've burned all your bridges and then watched it all
fall apart.
And like rock you've come crashing back down to Earth.

When destiny fails you and no one seems to give a shit
about you my friend.
'Coz in the end there will be no one left to help you out
of the hole you dug yourself in.
'Coz like me you've forgotten your fate an that
everything else is just a fucking waste of time!

Why wont you listen there's something that I gotta say,
I guess it won't matter to you anyway.
Why wont you listen there's something that I gotta say,
I guess it won't matter to you anyway.

When destiny fails you and no one seems to give a shit
about you my friend.
'Coz in the end there will be no one left to help you (To
help you, Yeah!) out of the hole you dug yourself in.
'Coz like me you've forgotten your fate an that
everything else is just a fucking waste of time!
