"Killing Time"

Visit "[Killing Time](#)" on MotoLyrics.com

You look at me, like I'm fucking diseased.
When it's out sight, is it out of mind?
You feel like me, you're all fucking diseased.
When I'm out of sight, I'm out of my mind

Use this dogmatic blasphemy to rape your soul until it
bleeds.
These voices in my head aren't mine screaming out it's
killing time!

All these feelings you'll never know in our hearts we
must let go.
We're all just killing time, it's killing time.
All these feelings you'll never know in our hearts we
must let go.
We're all just killing time, it's killing time.

You're just like me, we're all fucking diseased.
When we're out of sight, we're out of our minds!

Use this dogmatic blasphemy to rape your soul until it
bleeds.
These voices in my head aren't mine screaming out it's
killing time!

All these feelings you'll never know in our hearts we
must let go.
We're just killing time, it's killing time.
All these feelings you'll never know in our hearts we
must let go.
We're all just killing time, we're just killing time.
