I Never Do This:

You made a big mess, on your brand new black dress
But you don't care, you're going to wear what you want
to wear

And I can watch you all night

And it might be all right, For me to walk out on this limb
tonight

Oh I can't decide should I take a chance?

Right to the floor for another dance

Left all alone in the middle of ?

I can't believe she didn't want to stay?

What kind of man would let her get away?

I may never dance again

You made a big scene, in your skintight blue jeans

You're going to get hurt, in your Skid Row tee shirt

And I could fuck you all night

And it might be alright, For me to walk out on this limb
tonight

Chorus
