So I got scared lying next to you one night
and I'm a jerk leaving you all by yourself
so I can't stand myself, but that's alright
cause I'm a fool and you'll meet someone else
When I've gone too far and you've tried too hard

Well I'm in love with nobody but myself
and that's a lie but I'll believe it if I like
cause I'm the one who was turning into someone else
and he's the one who ruined your whole life

When I've gone too far and you've tried too hard
Yeah, I've gone too far and you've tried too hard
too hard

(music break)

So I'm still scared lying by myself tonight
and you're still scared lying by yourself tonight
and we both wish we weren't by ourselves tonight
oooohhhhh

I've gone too far and you've tried too hard
Yeah, I've gone too far and you've tried too hard
Too hard
Too hard
Too hard
