Ever since you've come my way
Something deep inside me says
Nothing that I've ever seen
Could ever be compared
Still I've seen it all before
But I have always wanted more than a momentary thrill
A casual love affair

Got to get to know you better
Baby, I've got to know you now
I envision us together

[chorus]
I'm feelin' you without even knowing you
No one else will ever do
So, I've got to tell you, oh I'm
Feeling you without even touching you
I saw you, instantly I knew
That I have to make you mine

Never thought I'd ever find
Then you stepped up in my mind
Just one look from you and then
My heart was blown away
You got me with your attitude
The confidence that you exude
I can tell your flavor would be
oh so good to taste
Could it be we could get any closer?
Baby I've got to know you now
Wonder have you even noticed

[chorus]

Na na na na na na na
Ooh, something about you, baby
Feeling, feeling baby
Got to get to know you better
I've got to know you now
I envision us together

[chorus]

Na na na na na na na
Never gonna let you go
Let ya go, baby
Na na na na na na na
I'm feeling you, ooh, are you feeling me
I have got to make you mine
I don't wanna take my time
Got to get to know ya
Maybe I can show you
