Lay back, babe, just let it go
'Cause there's something you should know
I've been waiting, oh, so long
For this chance to come along

My mind's made up, my heart is for sure
Trust me to love you forever more
And stay by your side for the rest of my life

Let's do it right, just you and I
We'll spend forever together
We're starting tonight

And it's true, when I say I do
I want you all to myself
Don't want anyone else but you

Take my hand, don't be afraid
I won't let nobody hurt you not ever again
And in time, we'll touch the sky
For I realize our dreams are starting to fly

When you're all that I am and you're all that I need
Beside me forever you're all that I see
I can't live without you, I'm down on one knee

Let's do it right, just you and I
We'll spend forever together
We're starting tonight

And it's true, when I say I do
I want you all to myself
Don't want anyone else but you

My mind's made up, my heart is for sure
Trust me to love you forever more
And stay by your side for the rest of my life

Let's do it right, just you and I
We'll spend forever together
We're starting tonight

It's true, when I say I do
I want you all to myself
Don't want anyone else

Let's do it right, just you and I
We'll spend forever together
We're starting tonight

And it's true, when I say I do
I want you all to myself
Don't want anyone else but you
