Speak up you know what is up
Code of silence who set you up
Some shit so wrong in this world
It's all fucked up now you're gone
Speak up you know what went on
How could you let it go?
It's murder and you covered up
Stained blood on your soul

Lets see you motherfuckers move

Down on my knees (Why?)
Hands stretched to heaven above (Above)
Christ this pain is hard to live with
Don't fill my heart with love (Say it, say)
Engulf my heart with vengeance
You need to see our pain
Don't fill this heart with love
The truth needs to be told (Alright, alright)
You can't mask, pain, my pain, our pain (You sing it to)
You can't mask, pain, my pain, our pain (Let me see
you)
You can't mask, pain, my pain, our pain
You can't mask, pain, my pain, our pain, come on
(Jump, jump, jump (Jump), jump), lets see jou jump
(Jump, jump (Jump), jump, jump, jump, jump, jump,
jump)

How the fuck am I supposed to?
All you motherfuckers are dead, go rock
Make a hit after seeing?
What's that holding my shit?
We want rock, we want soul
What the hell is that for?
What if this is your soul?
What?
Get your fucking hands off
Here we go, everybody (Come on)
Come on, come on

You can't mask, pain, my pain, our pain

You can't mask, pain, my pain, our pain
You can't mask, pain, my pain, our pain
You can't mask, pain, my pain, our pain

Alright you people, rest in peace
Everybody, come on, let me see your hands
Raise your hands, everybody, get those hands up

Lets see everybody, come on one last time
Are you fucking ready (Somebody, fuck it), lets go
You can't mask, pain, my pain, our pain, I can't hear
you
You can't mask, pain, my pain, our pain
You can't mask, pain, my pain, our pain
You can't mask, pain, my pain, our pain
You can't mask, pain, my pain, our pain
You can't mask, pain, my pain, our pain
You can't mask, pain, my pain, our pain
