Chorus:

Say goodbye
You're never gonna see my heart this way
It's never gonna be like yesterday
When everything was so new
And the sunshine poured all over you
And lit your sleeping face
Something I wish I could erase
Now that everything has gone wrong
But still I'm tryin to be so strong

I tried my best
Might as well have let that slide
What I had to give
Was never meant to be by your side
And I guess, well i knew
But baby I still feel the sting
In my walls of steel that now don't hold a thing

Chorus:

So baby say goodbye
You're never gonna see my heart this way
It's never gonna be like yesterday
When everything was so new
And the sunshine poured all over you
And lit your sleeping face
Something I wish I could erase
Now that everything has gone wrong
But still I'm trying to be so strong

I tried so hard
Hoping you'd believe in me
But I was such a fool
You just needed to be free
I wish you could have seen
Maybe I might have been right
From a point of view
In a different light, so baby

Chorus:

Say goodbye

You're never gonna see my heart this way
It's never gonna be like yesterday
When everything was so new
And the sunshine poured all over you
And lit your sleeping face
Something I wish I could erase
Now that everything has gone wrong
And still I'm tryin to be so strong

Bridge:
Don't think I didn't get
The way that you feel
But I let my heart concede
That this might be
For real...

Chorus:
Say goodbye
You're never gonna see my heart this way
It's never gonna be like yesterday
When everything was so new
And the sunshine poured all over you
And lit your sleeping face
Something I wish I could erase
Now that everything has gone wrong
And I'm tryin to be so strong
