Institutes of condemn
Tranquility of repetition
An act of betrayal
Indoctrination since birth

Controlled denial
Of inner development

Dominating structures
Influenced by doctrines
Society and it's beliefs

Your own rules and values
Are overruled by mass beliefs

Indoctrination since birth
By institutes
Which claim to know the truth

Treason

An act of deliberate betrayal
Disloyalty by virtue of subversive behavior

Indoctrination since birth
By institutes
Which seem so absolute
Treason

Responsibility
For circumstance
Of itself and it's surroundings
Cannot be attributed
To dominating structures
Of ideologies embodied
In constitutions and organizations
