Evil friend, evil friend [x2]

It never ends at the death of things
Burn and sing, burn everything and sing
It never ends at the death of things
Burn and sing, burn everything and sing
Evil friend

Evil friend, evil friend [x2]

There is starlight in your blood
It seems that are shadows are wearing us
There is starlight in your blood
Seems that our shadows are wearing us
Evil friend

Evil friend, evil friend [x2]

You knew rebirth but died again, evil friend
You got a black tooth that speaks no truth
Evil friend, burn everything and sing
Evil friend

Evil friend, evil friend [x2]

We are night sky, we are God's eye
At the end of a lullaby
On the shore of tears yet to be cried

We are we are night sky night sky
We are we are God's eye God's eye
At the end of a lullaby
On the shore of tears yet to be cried [x3]
