"How Long The Night Was"

Visit "[How Long The Night Was](#)" on MotoLyrics.com

I hear the ? don't last that long.
Hear the ? don't last that long.

I could not forget the sound.
Can not forget how long it was.
If you were dreaming you know,
How long the night was.
How long it was.
The night.
How long the night, it was.

When it's over some how.
I can't believe it now. (x2)

How long it was.

If you were dreaming you know, you know,
How long the night was.
How long it was, the night.
How long the night, it was.

How long the night was.
How long it was.
The night, how long the night, it was.

How long the night was.

If you were deaming you know (x2)

Don't you.

If you were dreaming you know how long the night was.
If you were dreaming you know (x2)

How long.

If you were dreaming you know how long the night was.
