[Intro:]

Soulja

Kony 2012

Right now, there are more people on Facebook that
there are on the planet

Humanity's greatest desire is to walk and connect

And now we see each other!

Stop knony, stop kony

Stop knony, stop kony

I got a life... and seven and a half days

Stop kony, man, I can't believe is going down

From my town, to your town, they're taking kids,

Turn them into soldiers, put a gun in his hand and his
life is over

Is getting so crazy, got to take it over

We gonna start kony it's 20 over

It's 2012 ten summers

Kid... take him to the jungle

Aka 47... never seen his daddy, never seen his momma

This is history, all you gotta do is believe

Soulja Boy... almost leave...

New rules

The next twenty seven minutes are an experiment

Stop knony, stop kony

Stop knony, stop kony

We can do it ya

Stop kony before it's too late!

Soulja!
