Take a look and see  
What's become of me  
Remember how it used to be

People that we'd meet  
Were falling at your feet  
You didn't even see it

Well, time marches on ahead, enough said  
There's only one way through it  
Time marches on ahead, one day we'll see it  
How there's a fine blue line  
Running through it

We read each other's books  
We gave each other looks  
Like we couldn't trust ourselves  
And we knew it

So tell me where you've been  
And I'll show you where you're going  
You can shout, you can scream  
Your way through it

Well, time rushes on ahead, enough said  
That's just the way we blew it  
Time marches on ahead, one day you'll see it  
Love is a fine blue line

Time races on ahead, enough said  
That's just the way we blew it  
Well, time marches on ahead, one day you'll see it  
Love is a fine blue line  
Running through it  
Running through it
