This alone is love
No small thing
This alone is love
That my love brings

And all of us
Who are traveling by trap-doors
Our souls are a myriad of wars
And I'm losing everyone

It will make my last breath pass out at dawn, at dawn
It will make my body dissolve out in the blue, blue for
you
Oh baby, what can we do

This alone is love
No small thing
This alone is love is love
That my love brings

And all of us
Who are traveling by trap-doors
Our souls are a myriad of wars
And I'm losing everyone

It will make my last breath pass out at dawn, at dawn
It will make my body dissolve out in the blue, blue for
you
It will make my body dissolve out in the blue, blue for
you
Oh baby, what can we do

It will make my last breath pass out at dawn, at dawn
It will make my body dissolve out in the blue, blue for
you
It will make my last breath pass out at dawn, at dawn
It will make my body dissolve out in the blue, blue for
you

Oh baby, what can we do
