Carl L. Marsh)

My baby works like a miner do  
She treats my body like  
a mountain range  
Some people say  
gotta look out for her  
Some people tell me  
that my baby's strange  
Love kills  
Love kills  
My baby stands like an oil rig stands  
She drills as deep as the ocean floor  
Some people say  
enough's enough  
But my baby she just drills  
some more  
Love kills my baby  
Love kills my baby  
Love kills my baby and me  
My baby turns as the planet turns  
She rolls the world from day to day  
Some people say  
the earth could move  
But i know that's just my baby's way
