Squeeze hold it in don't let it out
Don't let go
When you lose control you
Expose yourself
Making it easy to figure you out
Picked up turned out stepped on
Spit out
Picked up turned out you've been
Thrown down
Breathe hold it in now let it out let it go
Harder to ignore than to get involved
Some people think and some have no brain

Picked up turned out stepped on
Spit out
Picked up turned out you've been
Thrown down
Slide slide it in now let it out take it slow
When you lose control you expose yourself
Fucked from behind looked you straight in the eye
Picked up turned out stepped on
Spit out
Picked up turned out you've been
Thrown down
