Tearing within  
Suffocating bloodspill  
Hurts to be like this  
To be caught in between  
Feeling like emptiness  
(A) darkening inside  
Shattered by indifference  
Nothing left to hold

Questioning this barricade  
Holding back the reason  
Solitude is threatening  
Time to face the truth  
Scrape up what is left  
Desensitized within  
Hopelessness remains inside  
Damage beyond repair

Feeling within  
The leaving within, (now) bleeding again  
Feeling the emptiness  
Darkening inside  
Shattered by indifference  
Covered with scars  
Emasculated by circumstance  
Glorify the degradation  
Sick of suffering  
Damaged but not to care
