Turn around and leave the past
Coz you and I could never last
What ever that went wrong is dead and gone

Some might say that I'm a fool
But I ain't got anything to prove
Still heading down that road on my own

There is nothing I can do for you

Don't tell me you still need me
When all you want is to feel free
I will never be like you
There is nothing you can do
Just leave me here

Break my heart leave me unbound
I don't care how much you fool around
When the tears begin to fall I'll be gone

Stab my back and leave me blue
You know it's true I'll never be like you
What ever that went wrong is dead and gone

There is nothing I can do for you

Don't tell me you still need me
When all you want is to feel free
I will never be like you
There is nothing you can do
Just leave me here
