"Turn My Back On Love"

Visit "[Turn My Back On Love](#)" on MotoLyrics.com

Time is running out
For all of us walking down that one way street
And we're lost
But we will always find another way around it all without
loosing our minds

Like me and like you we never made it through

Now we're going down again
Why do we still pretend
I will never turn my back on love like you

Life is passing by
And we never had a chance to earn a first class ticket
to ride
And we're lost
But we will always find another way around it all without
loosing our minds

Like me and like you we never made it through

Now we're going down again
Why do we still pretend
I will never turn my back on love like you

How can you sleep at night when the lights turn out
How can you keep the faith when you're stuck in doubt

Like me and like you we never made it through

Now we're going down again
Why do we still pretend
I will never turn my back on love like you
