Listen here won't you tune me in?
You can call me your weatherman
Your forecasts cloudy, your sky is gray
But soon the sunshine is on the way

Chorus:
Dianna...

Seasons changing they move in time
I'll take your hand if you take mine
Nothings certain so take a chance

Chorus:

A warm winds blowing
It's coming through the trees
Can't you feel that summer's breeze?
No way of knowing
There's change in everything
Let your heart begin to sing.

Chorus:
