### "Until We Collide"

Hear me completely  
Enough's enough today  
At last, i recongnize  
You're only in my way and i

I can't take anymore  
You're holding onto hope, it's the same as before  
So, don't you waste anymore of our time  
We'll hover close to safety until we collide

Break me completely  
Keep me to yourself  
That way i understand  
That time takes time itself and i rewind

I can't take anymore  
You're holding onto hope, it's the same as before  
So, don't you waste anymore of our time  
We'll hover close to safety until we collide

This is a glimpse of my absolute best  
This is me with nothing left to confess  
Clean slate, fresh start, drive me out of control  
Little changes here, i wish you'd leave it alone

This is a glimpse of my absolute best  
This is me with nothing left to confess  
Clean slate, fresh start, drive me out of control  
Little changes here, i wish you'd leave it alone

I can't take anymore  
You're holding onto hope, it's the same as before  
So, don't you waste anymore of our time  
We'll hover close to safety until we collide

Until we collide  
(So, don't you waste anymore of our time)  
Until we collide  
(We'll hover close to safety)  
Until we collide
