I think it's turning back around and I think I like it
I think it's turning back around though I don't know why
it is

I think it's turning back on me, I'm down on the upside
I think it's turning back on me now I'm on the good ride
And nothing's gonna put me out
It's backing down and under
I'm down on the upside now
It's turning back around
Turning back around

I think it's coming on the wind, just like you said it
I think it's coming on the wind and I'm gonna let it

I think it's turning back on me
Everything is easy
I think it's turning back on me
Everything's real to me
Nothing's gonna put me out
It's backing down and under
I'm down on the upside now
It's turning back around
Turning back around
Turning back around (Fill me up)

I think it's coming on the wind, just like you said it
I think it's coming on the wind, I'm gonna let it
Nothing's gonna put me out
It's backing down and under
I'm down on the upside now
It's turning back around
Turning back around
Turning back around
Turning back around
(Turning, turning, turning) Turning back around
(Turning, turning, turning) Turning back around
(Turning, turning, turning) Turning back around
(Turning, turning, turning) Turning back around
