Lyrics by chris cornell
Music by kim thayil

Unreleased

Ocean fronts, ocean new
See it from my waiting room
Hear it in my hollow walls
Just like a shell, hear it call
From my waiting room

Ocean fronts, guard by fire
Liquid mist, hide the shore
Underneath cities float
Back and forth I hear the flow
From my waiting room

Ocean violence killing calm
Crashing over the under world
Ocean silence under breath
Words do flow to reach me
