I remember that new pair of blue jeans  
And man, your boots sure did shine  
You had on my favorite cologne  
I knew what was on your mind

You picked me up in that Mustang  
You were right on time  
Had the radio on, it was playin' our song  
We were leavin' the world behind

I wanna remember that lovin' feelin'  
When we were young and our hopes were high  
A heart was somethin' you could believe in  
Love was more than just a word  
Before we ever heard goodbye

That summer night down at the levee  
You gave me your ring on a chain  
There would never be another for me  
Tell me why does everything always have to change?

I wanna remember that lovin' feelin'  
When we were young and our hopes were high  
A heart was somethin' you could believe in  
Love was more than just a word  
Before we ever heard goodbye

I wanna remember that lovin' feelin'  
When we were young and our hopes were high  
A heart was somethin' you could believe in  
Love was more than just a word  
Before we ever heard goodbye, goodbye
