Could there be a different ending  
To the same old story  
Cause you're not the first to say  
You're gonna be there for me  
I need to know what's in your heart  
Can you finish what you start  
How can I be sure I won't be sorry  
If heartaches and tears  
And shadows of doubt  
Are part of the deal  
You can count me out  
But if you're talkin about  
A game I can win  
You can count me in  
When you tell me you're the one  
I've always needed  
You don't know how much I'm wanting  
To believe it  
But I've heard it all before  
Now I'm needin something more  
A promise is no good if you can't keep it  
If heartaches and tears  
And shadows of doubt  
Are part of the deal  
You can count me out  
But if you're talkin about  
A game I can win  
You can count me in
