Life is a little part of death
Just an instant in an empty space
It's a beautiful pain
Life is short
Life is short
Just do things you like
Just what makes you happy
Please like the life
Please love the life
But do not hate the dead
You were dead forever more my friend
Then you appeared to be a man

Now you're waiting for the end
Life is short
Life is short
Just do things you like
Just what makes you happy
Please like the life
Please love the life
But don't be afraid of the dead
